THE JAPANESE. Social Life in Japan.—"I don't think I ever saw a happier people than those which now crowded the streets through which we passed. Such a thing as want seemed entirely unknown to them, and we did not encounter a single scowling face. Everything was curiosity and smiles, and salutation, and apparent plenty. Here we were pressed to enter the cleanly houses and drink sakie or tea. In another place we must share their evening meal, and smoke a dozen or more of their diminutive pipes of tobacco; and again we would be stopped at a fruit stall and pres-sed to partake. During our whole stay we have not seen a dozen beggars, and even they could not be called such, for their wants seemed to be supplied by every one as a mat-ter of course. These were always old men

or women who were evidently unable to sun-

port life in any other way." RELIGION IN JAPAN. -The London Exami ner says in religious matters it is plain that the Japanese are not intolerant, for they have three different religions, divided into upwards of thirty sects, the votaries of all of which live peaceably together. The persecution of the Christians in the seventeenth century was a political and not a theological one. Before it commenced, the bonzes, or priests of Budd hism, a form of religion introduced from India, were the most importunate in their complaints against the Christians. They petitioned the Emperor against them, who demanded how many forms of religion existed in the empire, and the reply was thirty-five "Well," rejoined his Majesty, "where thirty-five can be tolerated, we can easily bear thirty-six. Leave the strangers in peace."

GOING THE ROUNDS AGAIN. Most of our older readers undoubtedly remember the following correspondence be-tween Amos Kendall, when he was Postmaster-General, and a postmaster down in Alabama, from whom Mr Kendall wished to learn the source of the Tombigbee river. It will bear a re-print. So here goes:
This Department desires to know how far the Tombigbee river
